BY NOV. 28TH

Q. What is a Merry Mini?

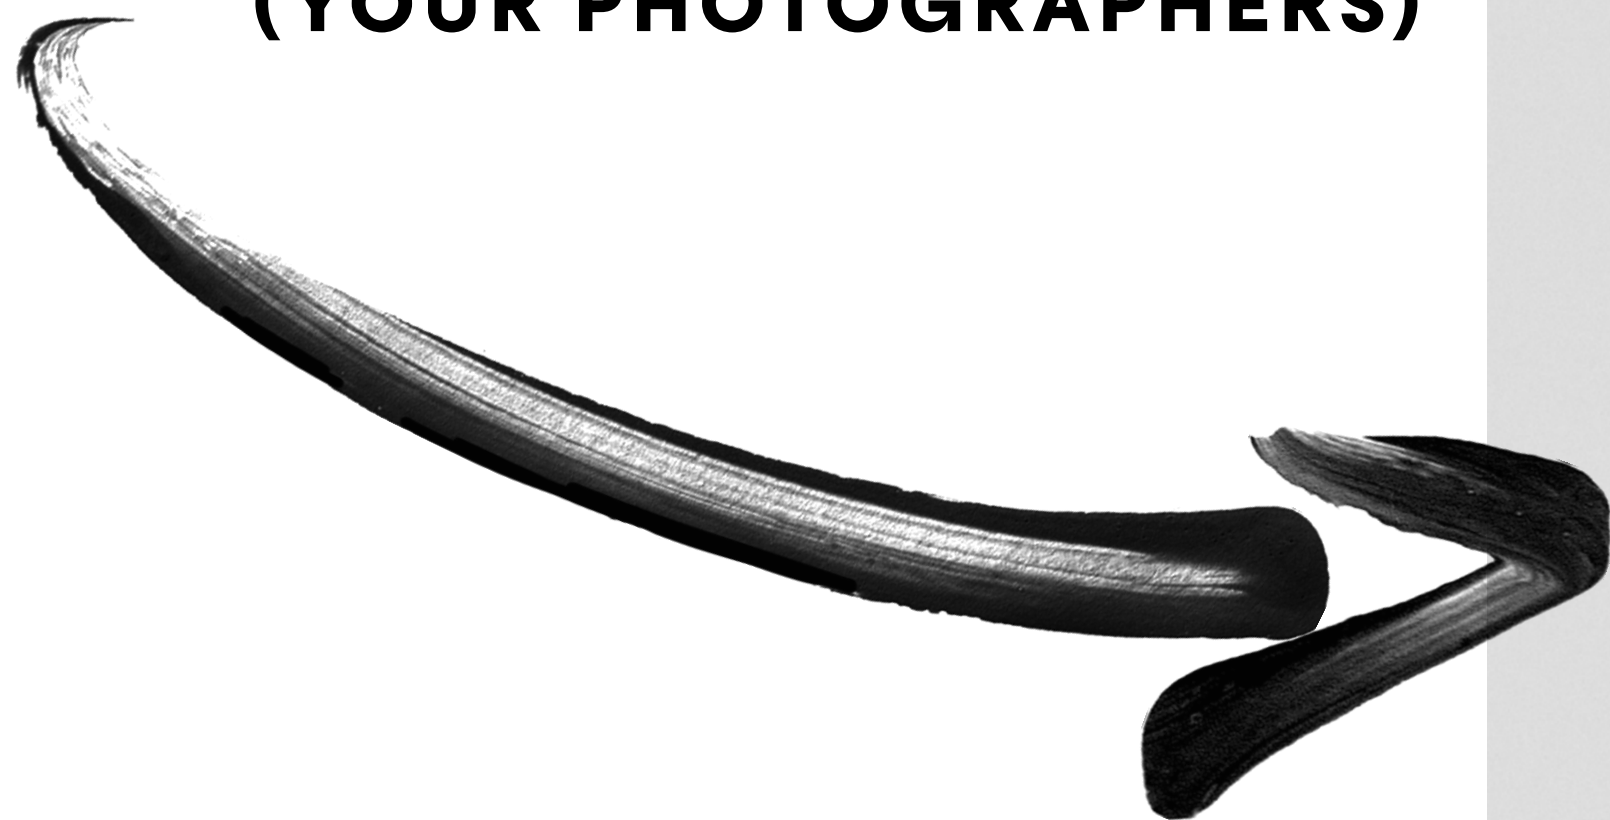

Inspired by our high quality and outrageously fun Fauxtobooth, a Merry Mini combines the emotions of a regular family session with the studio polish of the Fauxtobooth, in the time frame of a Mini Session.

These sessions are fast paced and ready within a few weeks to easily meet the demand of a well placed holiday card or set of prints to give as a gift.

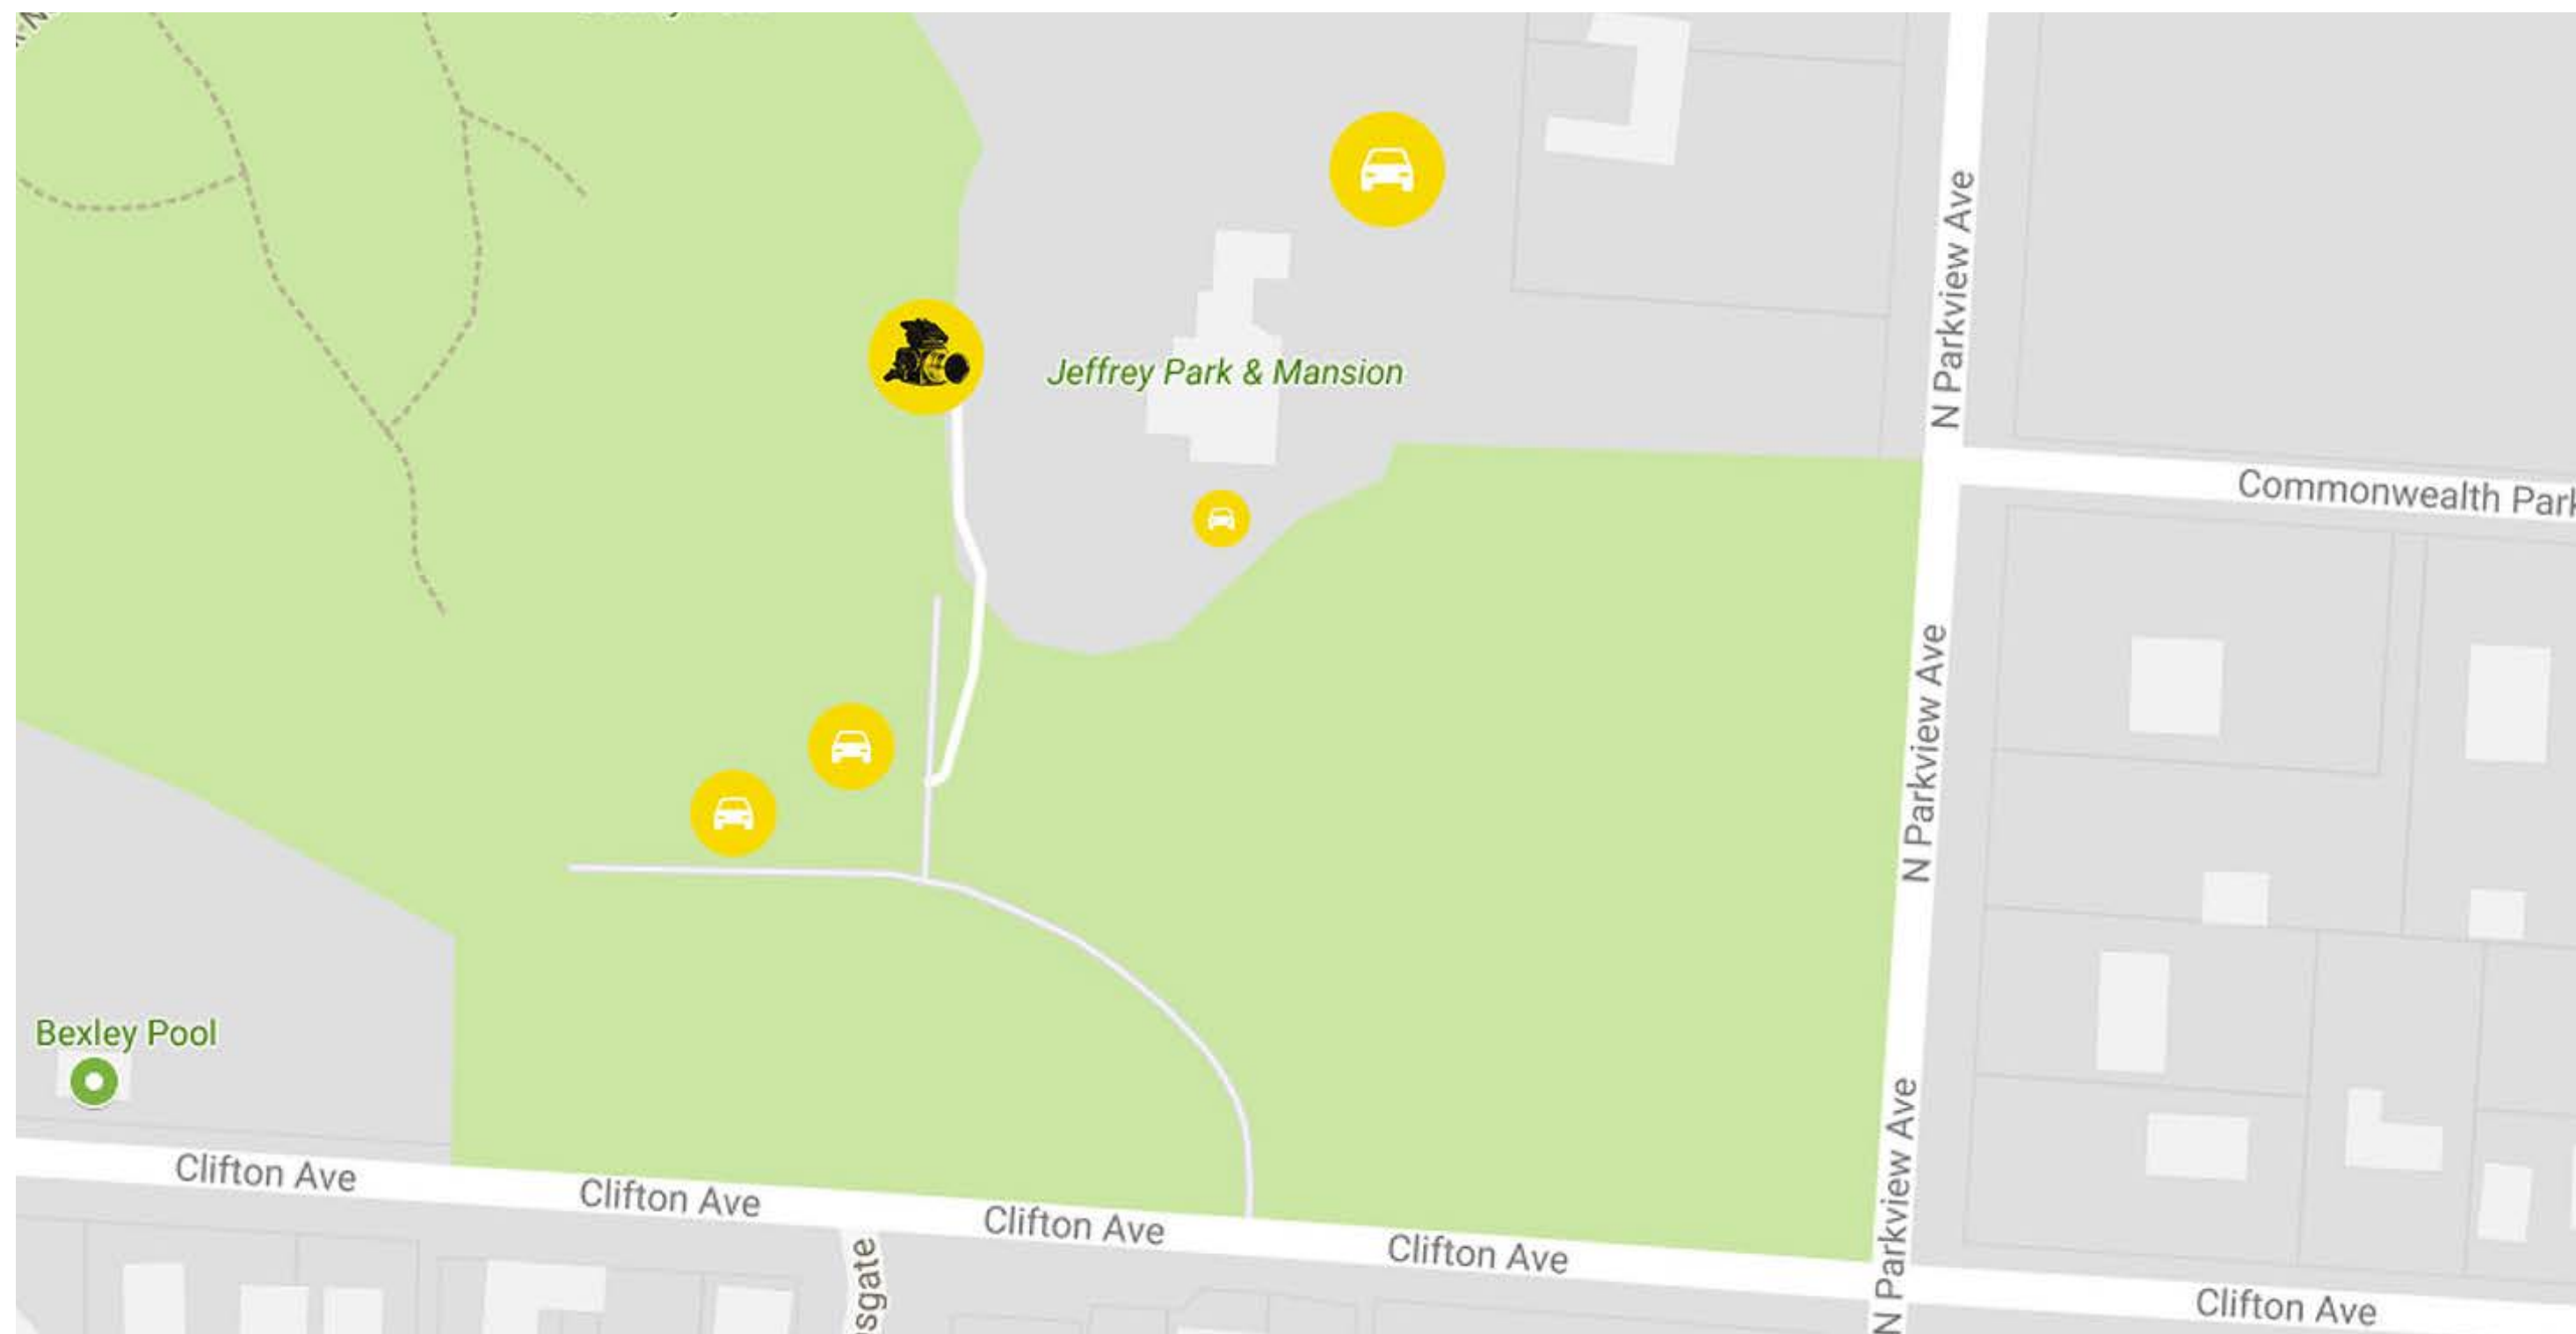

BENJAMIN & JENNIFER

(YOUR PHOTOGRAPHERS)

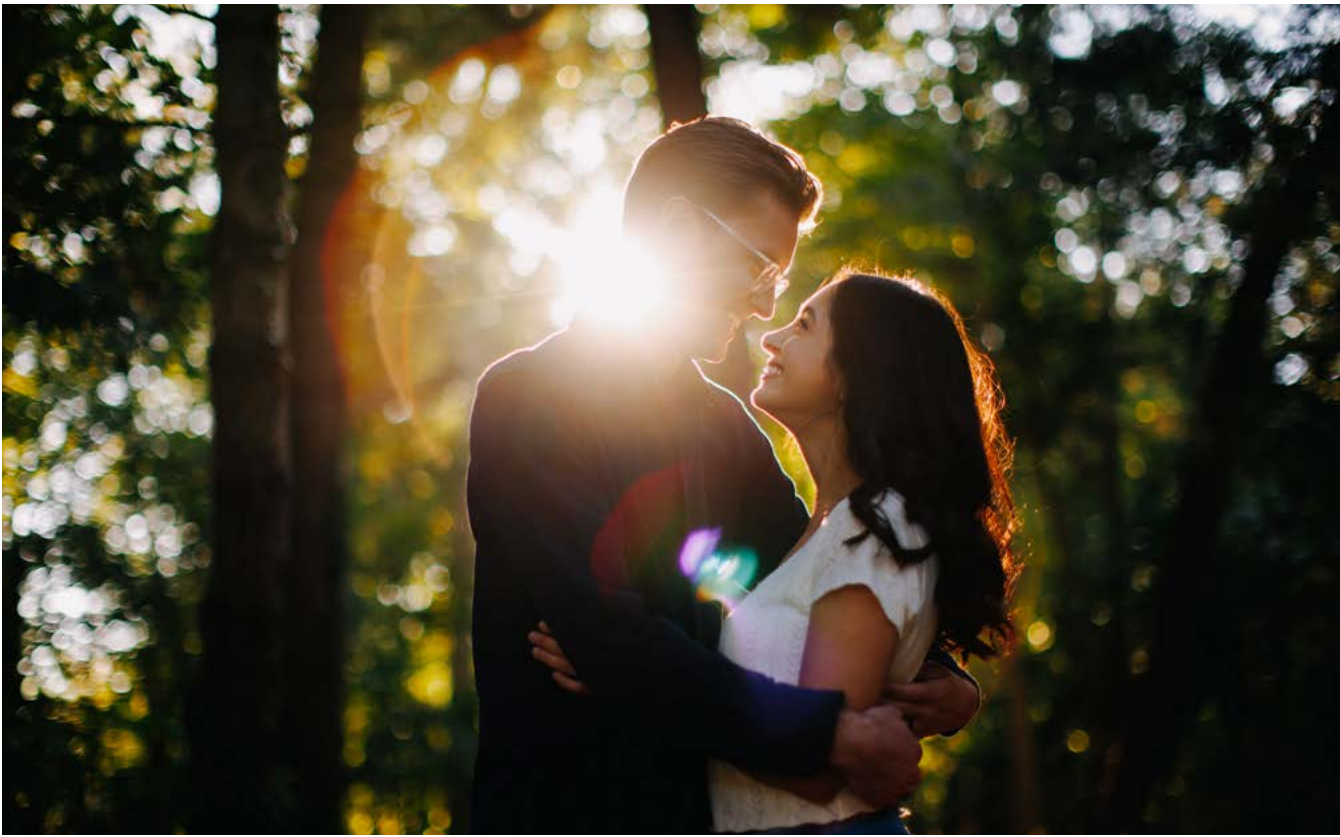

Meet here:

JEFFREY MANSION

Please plan to meet at the base of the large staircase at the back of the mansion. Please meet at the camera icon location.

Q&A

Q. What should we wear for our session?

We always encourage our clients to dress in a way that reflects your personality and makes you and your family comfortable. That confidence and comfort does shine through in your images. For some that might be letting your kiddos wear a super hero cape and for others it might be in matching shirts. From a photography perspective, we encourage clients to think about cohesion and coordinating over matching. Neutrals and limited patterns tend to blend together well with larger families or groups. That said, rock that crazy patterned favorite sweater if you want! We love it all!

Q. Can we bring a pet?

The answer to this is location specific. Jeffrey Mansion has a no pet policy on their grounds enforced by Bexley Parks and Rec. Schiller Park does allow pets as long as they are safe and on a leash.

Q. How many people can we include?

It's good to think through the number of people in your session if you are planning to have grandparents or other friends or family join outside of your immediate family. I can't give you a number but rather a guide to think about it. The more people you add the more time it takes logistically, from arriving to moving around and getting everyone set. It also can increase the images list, and groups and variations you may need or want. If you are including more than one immediate family, or if you want a wide array of images and options you might want to reserve two sessions back to back or reach out about scheduled a stand alone full session which can be up to 1.5 hours.

Q. How many images will be receive?

ALL of the final images with full printing rights. You don't need to select your favorite few, to keep, but rather enjoy all of the images. This typically is about 30-40 images in your final collection.

(more) Q&A

Q. Can we bring meaningful elements to be used in our photos?

ABSOLUTELY! Feel free to bring a favorite blanket or a sign if you would like to make an announcement or celebrate a special moment. Again keep in mind your 20 mins session time and set your expectations accordingly. Feel free to send us an email if you have an idea you want to run by us!

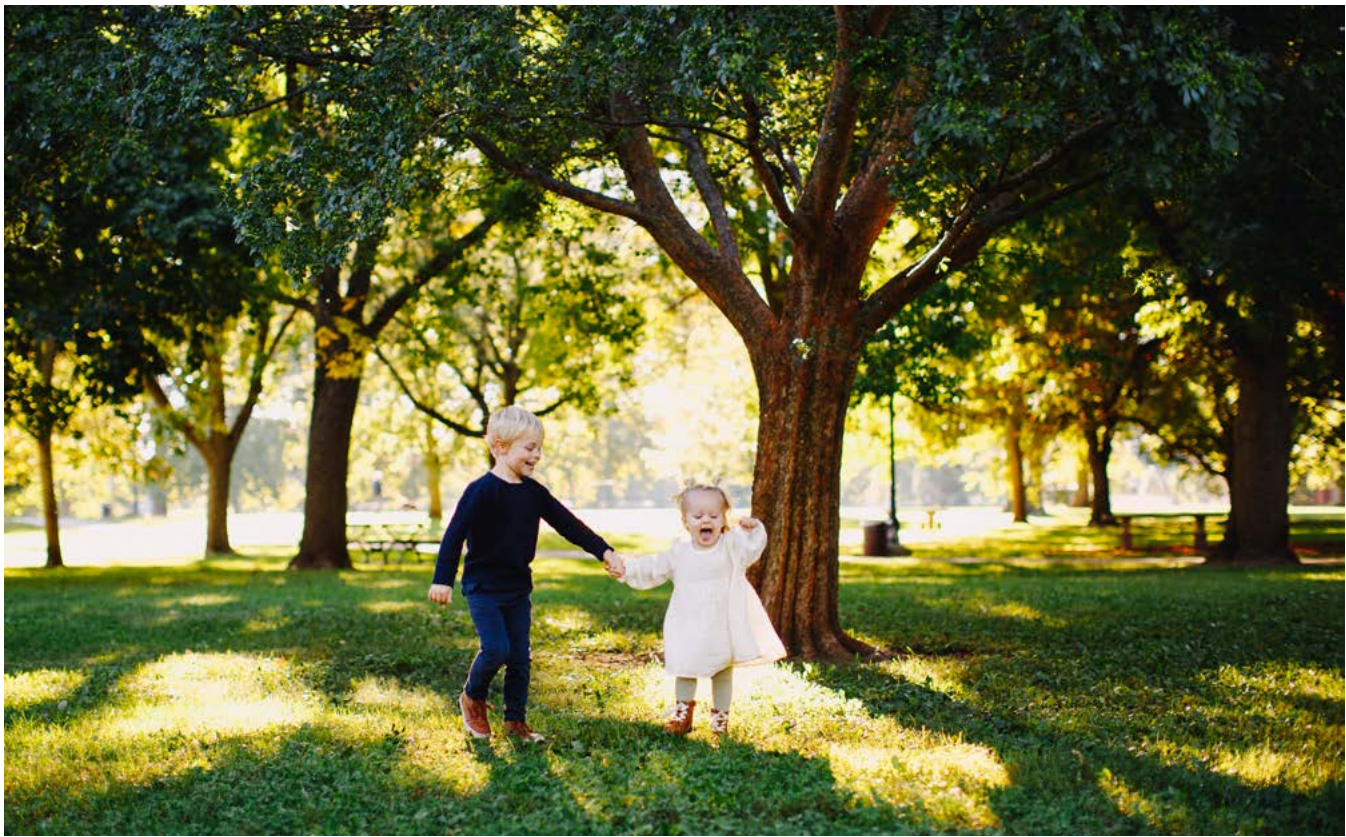

Q. What happens if our children/babies aren't "feeling it"?

As parents first and foremost we get it! We do our best to be calm and engaging with kiddos. Sometimes that brings out the smile and some years are photos are filled with snuggled heads or crazy, silly faces. As with so much of family and parenting, learning to embrace the mood, joy, challenges and personalities of each child and each season is key! And doing so with humor and grace sure can help!

Q. How long until my photos are ready?

4 to 6 weeks is typical turn around. We can rush the processing of your photos if needed, a rush charge will apply.
